PROGRAMME OVERVIEW

The **Doctor of Business Administration (DBA)** is a **Level 8 doctoral programme aligned with the European Qualifications Framework (EQF) and Malta Qualifications Framework (MQF)**. The programme is offered by EU Global and is designed for senior professionals seeking to create original, practice-based research with real-world business impact.

The programme is delivered fully online and is approved under the regulations of the **Malta Further & Higher Education Authority (MFHEA)**.

EU Global accepts both experiential **Recognition of Prior Learning (RPL)** and credit transfer based on learning outcomes, allowing eligible candidates to apply for advanced standing or progression within the programme.

PROGRAMME OUTCOMES

- Develop the ability to conduct advanced, practice-based research that addresses complex business challenges and generates meaningful, real-world insights.
- Build a strategic mindset to solve organisational problems using data-driven insights, critical thinking, and evidence-based decision-making.
- Strengthen leadership capabilities to drive innovation, transformation, and long-term business impact at senior levels.
- Gain expertise in advanced research methodologies, including qualitative and quantitative techniques for effective data collection and analysis.
- Produce high-quality, publishable research aligned with global academic standards and industry relevance.
- Communicate and defend research findings with confidence, influencing business strategy and decision-making on a global scale.
- Apply your knowledge to real-world challenges. Through the Capstone Consulting Project, you'll solve a practical business problem and deliver actionable insights.
